2. Management Summary

The audit of «BCM 22301:2019 FND» closes with the verdict **FAIL**: 0 critical, 6 major, 15 minor finding(s) and 2 observation(s) across 6 chapter(s) and 33 question(s).

The Foundation syllabus BCM 22301:2019 is substantively sound but not consistently bilingual. The English text of chapter 503 is only a TBD, chapter 505 lacks the Disaster Recovery definition, and the situation definitions in chapter 504 differ in meaning between DE and EN. The topic description is not equivalent in DE and EN and the EN exam prerequisite is German. Of the 33 questions none has a wrong answer marking; one mistranslation (going concern) and typos were found. Chapter weights add up to 96.

Recommendation: Fix the six MAJOR findings first (EN chapters 503, 504, 505, topic description, EN exam prerequisite, translation of answer 7dfe4ecd), then typos and weights.

3. Top 5 Critical Findings

Priority	Severity	Entity UUID	Location	Finding	Impact	Recommended Action
1	MAJOR	0b7fb7d6-3402-44b3-994c-b55dce827548	`content.en`	English chapter content is only a placeholder (TBD)	English-speaking participants see no course structure; the German text has 1134 characters.	Translate the German text into English and replace TBD.
2	MAJOR	7dfe4ecd-c548-4354-a9c1-461d0ce74b53	`text.en`	Mistranslation: "Geschäftsfortführung" rendered as "going concern"	"Going concern" is an accounting term, not a BCM term.	"...ability to maintain business continuity..."
3	MAJOR	aa2ffd2f-86b4-45c2-a8fc-ef6a3b202086	`exames.prerequisite.en`	Exam prerequisite (EN) is in German	English candidates see German text.	Translate ("None. However, we recommend ...").
4	MAJOR	068c428c-8d3d-45a3-9487-157a513f04b7	`content.en`	Definition of "Disaster Recovery" is missing in the English text	Question 52014bec tests exactly this definition; English learners cannot find it in the syllabus.	Add the entry "Disaster recovery".

5	MAJOR	8adc0e28-29cb-4fb7-9d5e-f2b0af3f3263	`content.en, section "Situation pictures"`	Situation definitions (disruption, emergency, crisis, disaster) differ in meaning between EN and DE text	The EN text uses different definitions than DE and than the ISO 22300 definitions in chapter 505; learners get different material per language.	Align EN definitions with DE/ISO 22300 (e.g. "Disruption: expected or unexpected event that interrupts normal functions, actions or processes").
